

JOINT CONFERENCE WORKSHOP ON CURRICULUM MAPPING AND INNOVATIONS

WORKSHOP

The goal of the workshop is to disseminate the outcomes of the BCIME project including presentation of the developed software and discussion of methods and outcomes of curricular data analysis. Furthermore, the achieved results of the innovations and the improvements of medical and healthcare curriculum development will be presented to participants. BCIME team will share skills, methodologies and the process of organizing curriculum mapping. Recommendations and guidelines will be summarised, presented and discussed to be used and implemented correctly within the project's curriculum management system.

TARGET GROUPS

The workshop is oriented to members of technical and medical community attending the conference, those who are interested in curriculum harmonization processes, especially students, teachers, tutors, curriculum designers, institutional management and anyone, who might be engaged in innovation of education.

AGENDA

- BCIME aims and curriculum management trends and visions
- Needs analysis results and recommendations
- Methodological and technological innovations
- Implementation of curriculum management system
- Metadata description of outcome-based curriculum
- Outcome-based curriculum evaluation
- Discussion

PLACE

MCSB 2021 – international conference on Cybernetic Modeling of Biological Systems

- Hybrid: **Kraków** and **MS Teams**, 28-30 May 2021
- Conference Centre Faculty of Medicine
Jagiellonian University Medical College
ul. Św. Łazarza 16, 31-530 Kraków, Poland
